

CRANBERRY TIPWORM CONTROL

Brian Mauza,
Agricultural Scientist

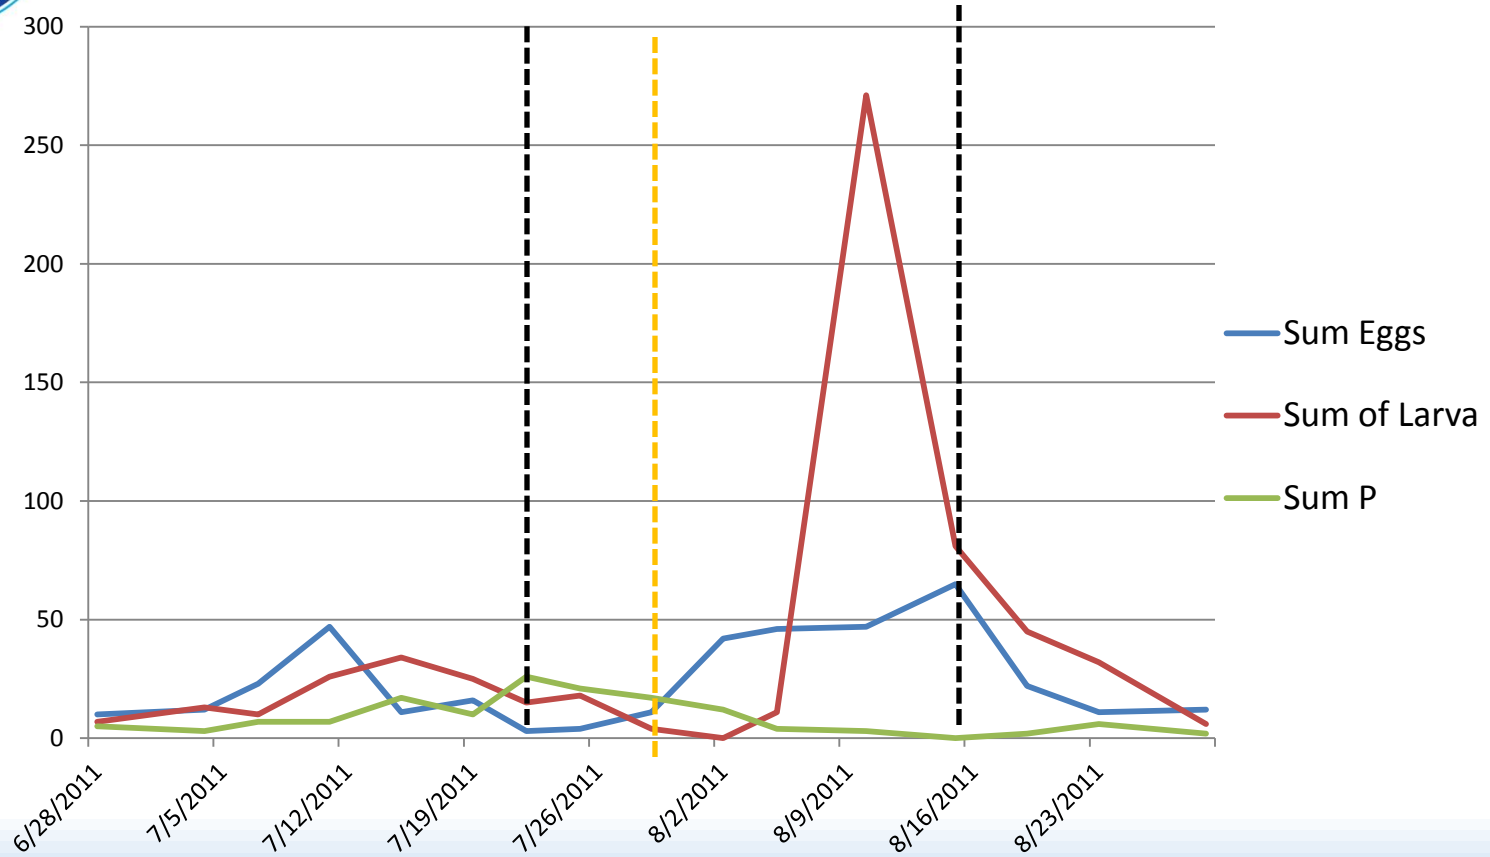

Tipworm History of One Bed

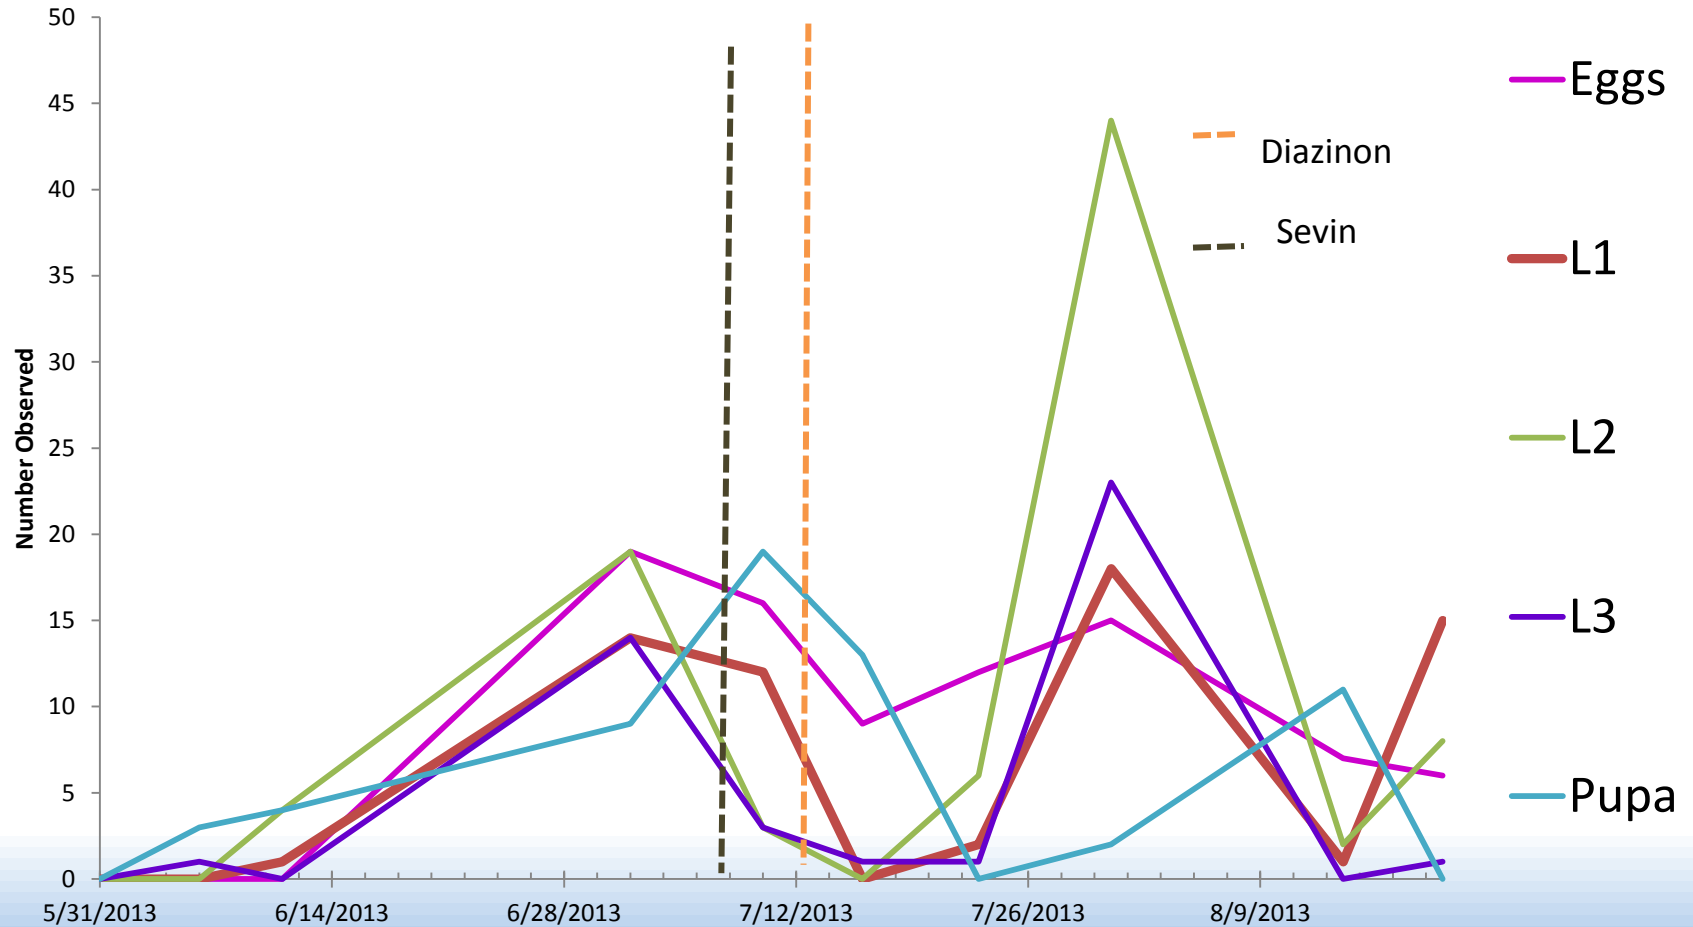

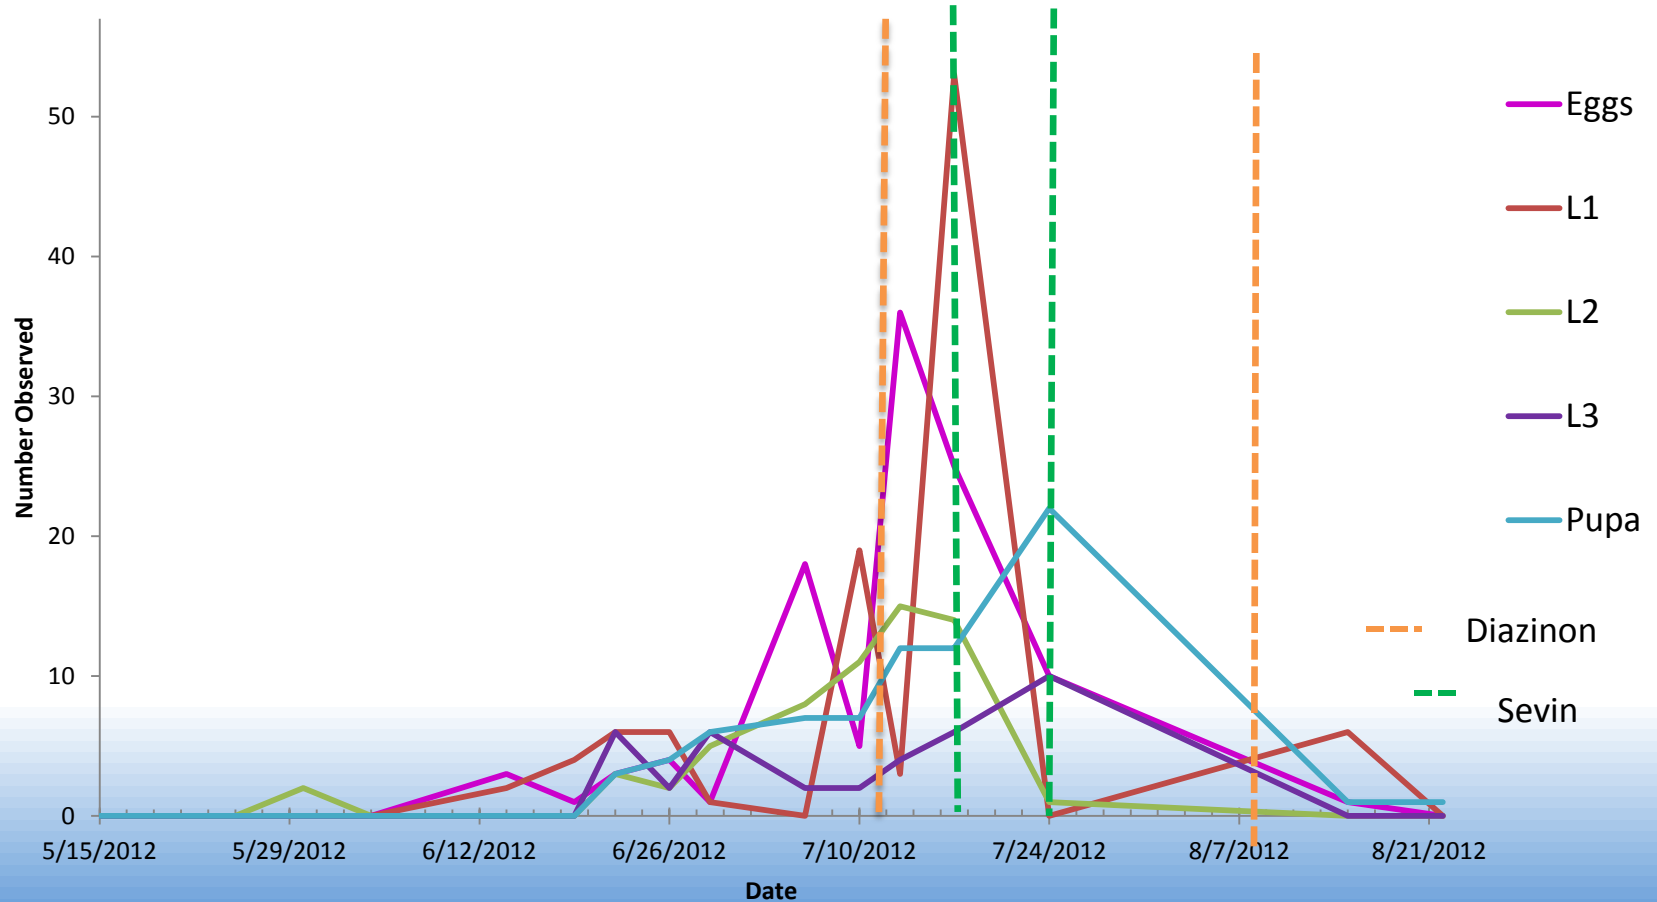

POOR TIMING

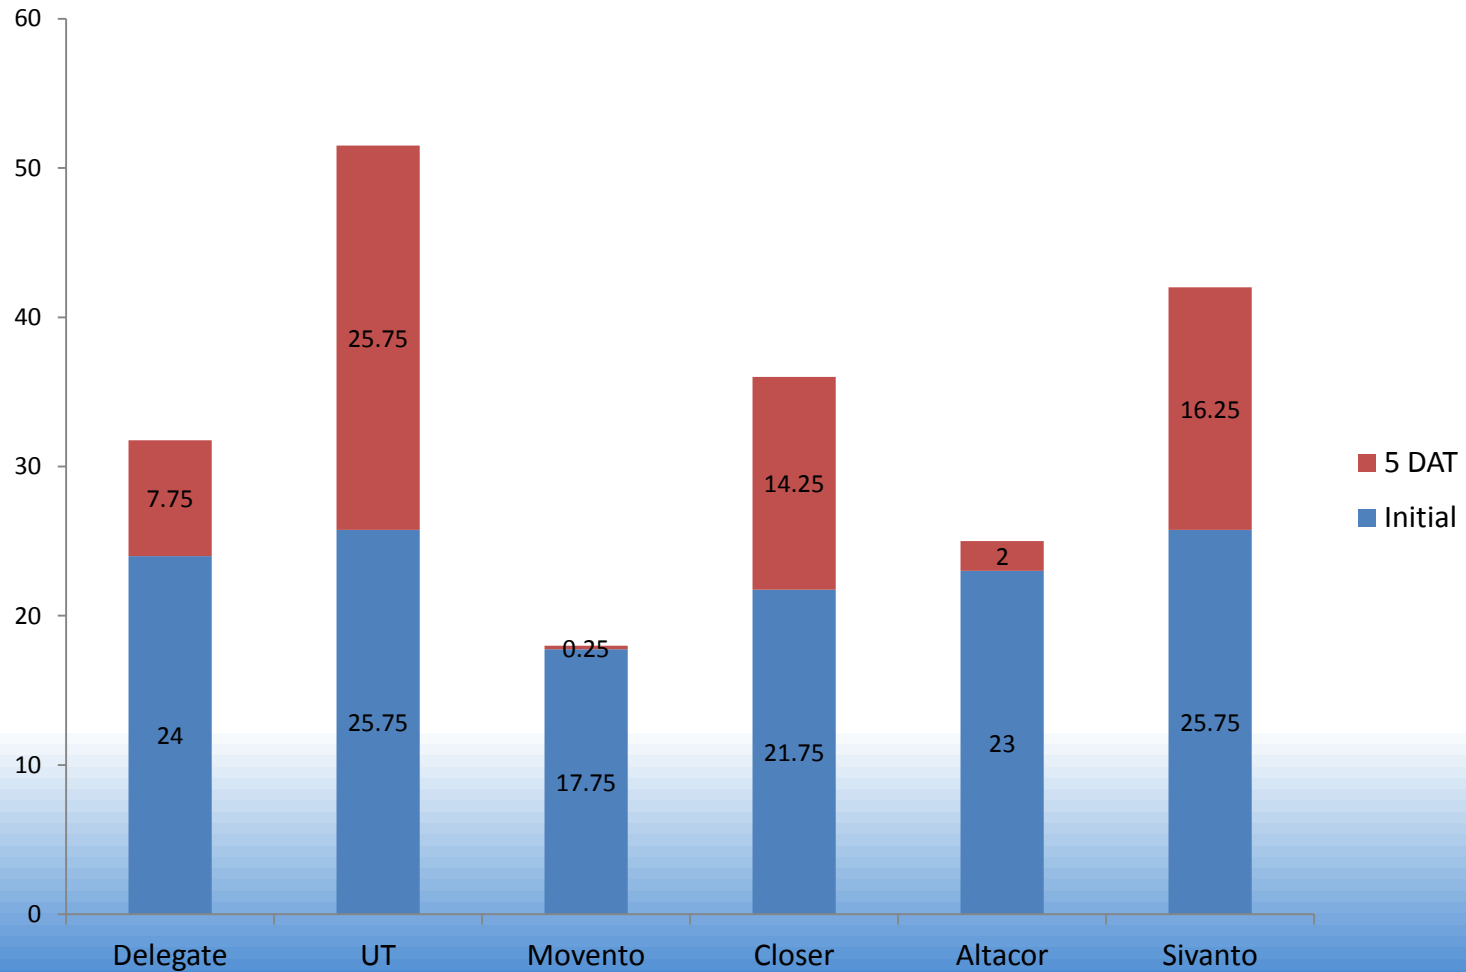

MISSED 2ND APPLICATION

BETTER TIMING

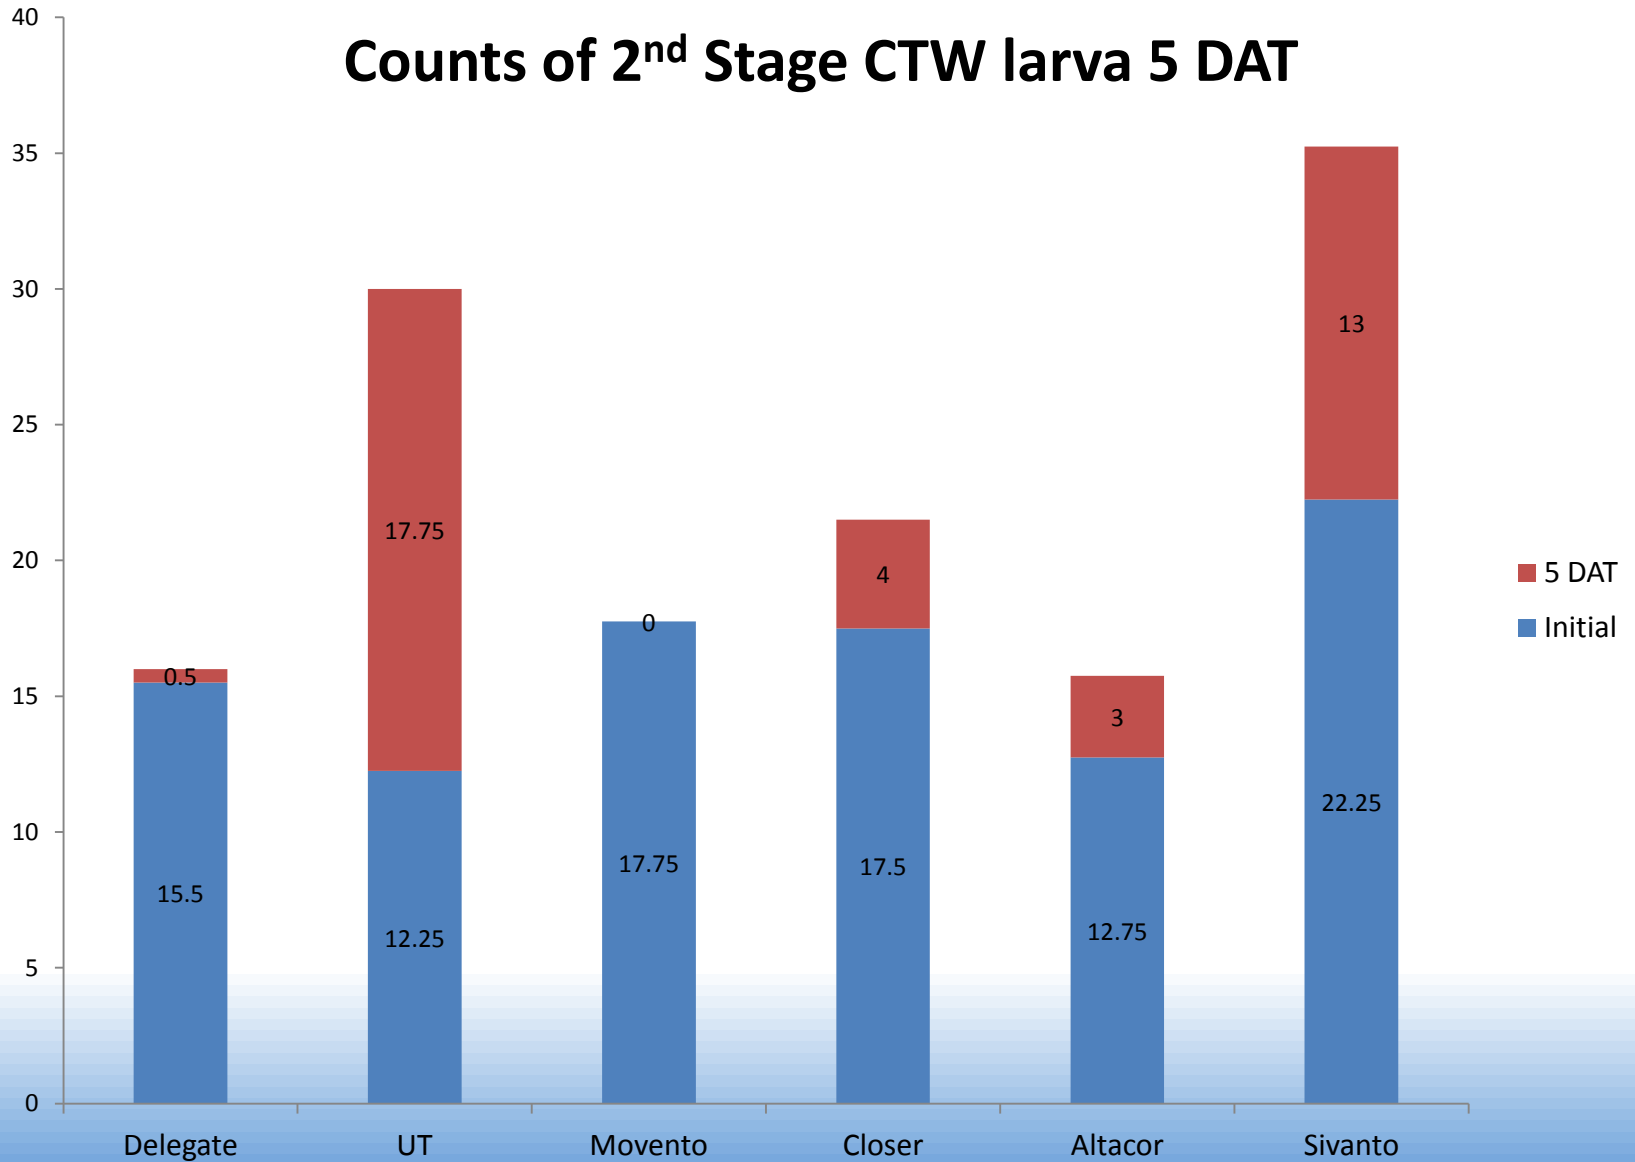

Counts of 1st Stage CTW larva 5 DAT

Brian Mauza, Ocean Spray of
Canada, Ltd.

Counts of 2nd Stage CTW larva 5 DAT

TAKE HOME

- **TIMING OF YOUR TREATMENTS FOR L1 STAGE IMPROVES CONTROL**
- **DELEGATE AS A SPRAY APPLICATION WORKS WELL**
- **MULTIPLE APPLICATIONS ARE REQUIRED TO CONTROL POPULATIONS**
- **ALTACOR MAY GIVE SECONDARY CONTROL WHEN USED FOR REGISTERED PESTS**
- **NEW PRODUCTS ARE STILL NEEDED**

We wish to acknowledge
Agriculture and Agri-Food Canada Growing Forward 2
and
the BC Cranberry Marketing Commission
and
Ocean Spray of Canada, Ltd.
for assisting us with the funding for the pest control trial.
