

BC CRANBERRY MARKETING COMMISSION GUIDELINES FOR 2018 CRANBERRY RESEARCH PROPOSALS

APPLICATION PROCEDURES

- Applications must be submitted in the format described in Schedule 1 with a Budget format described in Schedule 2.
- Application should be submitted electronically in Word, Excel or PDF format to info@bccranberries.com.
- The deadline to receive proposals is **February 7, 2020**.
- All proposals must have a complete budget.
- Projects do not have to be undertaken in British Columbia, but the results must be applicable to BC cranberry growers.
- Applicants may be required to present the application in person to the Commission's Research Committee.
- The Commission does not normally pay overhead costs.
- If the application is submitted by January 17th, preliminary feedback will be provided for the final submission
- All applicants will be informed of their funding status by March 31, 2020.

PROJECT REPORTS

- Reports must follow the timing and format described in Schedule 3.

**APPLICATION FORMAT FOR RESEARCH GRANTS
FROM THE BC CRANBERRY INDUSTRY**

Project Title

- Provide a short descriptive Project Title.

Commission Research Priority

- Identify the Priority this Project will address.

Objectives

- What information will the completed project provide?

Project Summary

- Provide a concise summary of how the project will be conducted. You will also be asked to prepare a short summary upon completion, suitable for inclusion in a Growers' Newsletter.

Principal Investigator

- Name who will supervise the project and identify who will undertake the work. Include address, telephone number and email address.

Project Duration

- Beginning and Completion Dates (including filing of final report). For multi-year projects, identify the sequence of this year's project and provide a summary of previous year(s) activities and results.
- You will be contacted mid-way through the project to confirm it is proceeding as planned.

Location

- Where will the project be undertaken?

Literature Review

- Provide a description of other ongoing relevant work.

SCHEDULE 1 - continued

Probable Subsequent Research Work Required

- Identify related or subsequent projects that may assist us to find solutions to the research priorities.

Growers' Field Day

- Indicate if project results would be suitable for growers to view and if so, identify the optimum period when this should occur.

Budget

- Total amount of funding requested.

Other Funding

- List other funding sources, including amounts that apply directly to this project.

SCHEDULE 2

BUDGET FORMAT FOR RESEARCH GRANTS FROM THE BC CRANBERRY INDUSTRY

Please indicate if your budget is in Canadian or US currency, or it will be assessed based on Canadian currency.

How many years of funding will be required to complete this project? _____ year(s)
