

Lindsay Wells-Hansen is a Senior Agricultural Scientist with Ocean Spray Cranberries in New Jersey where she works closely with the cooperative's growers to address production concerns through on-farm research and extension efforts. Lindsay joined Ocean Spray in 2016 and served as the Agricultural Scientist in Wisconsin before relocating to her home state of New Jersey in 2020. Before starting her career at Ocean Spray, Lindsay earned her PhD (2016) and MS (2013) in Plant Pathology at the University of Wisconsin-Madison and her BS in Biology from Temple University (2008).
